SUMMARY

Software engineer with 4 years of experience building responsive, scalable web apps using Angular 14+, ReactJS, TypeScript, and ES6. Skilled REST API integration, DOM manipulation and Git. Strong focus on reusable components, performance, and secure, maintainable code. Gained hands-on exposure to Java Spring Boot as an additional skill.

WORK EXPERIENCE

Velotio Technologies Pvt Ltd (Senior Software Engineer)	May 2025 - Present
<ul style="list-style-type: none">Migrated application from PrimeNG v19 to v20, resolving breaking changes which resulted in ~30% reduction in UI bugs.Upgrading Angular v17 to v20 ensuring compatibility, performance improvements and dependency updates.Experienced in using Cursor AI with custom rules, documentation, and MCP servers to accelerate development, improve code quality.	
PeopleHum Technologies Pvt Ltd Jan 2024 - Apr 2025	
(Senior Software Engineer)	
<ul style="list-style-type: none">Drove end-to-end development lifecycle including technical design, implementation, testing, and deployment.Led regular code reviews and enforce best practices to ensure code maintainability and performance.Communicated the Project Manager and leads updated on project progress and managed team task distribution.	
Key Projects:	
Payroll System: Developed a comprehensive payroll system for India and UAE , incorporating country-specific regulations and requirements to ensure accurate payroll processing, compliance, and efficient financial management for 2000+ users.	
<ul style="list-style-type: none">Streamlined payroll setup with Registered Entities, Pay Groups, and configurable Statutory Components (PF, PT, LWF, ESI, NPS) and built scalable UI components while ensuring performance and 100% reusability e.g standalone Salary Template and Components.Managed payroll processing with support for regular & custom pay cycles, defining pay periods, and ensuring timely approval of pay runs.Delivered employee and employer dashboards with accurate data visibility, including YTD reports, supporting 2000+ users and administrators.	
Hostname Branding: Led implementation of Hostname Branding for customisable, scalable white-label deployments.	
<ul style="list-style-type: none">Configured domain mappings and subdomain structures to align with business and branding needs.Designed api for hostname assignment for multi-tenant environments, reducing manual setup effort by 90%.Managed CORS policies and domain whitelisting to prevent unauthorised access for all users accessing the website.Enabled custom branding through hostname-specific logos, login page and other UI configurations for multiple clients.	
PeopleHum Technologies Pvt Ltd (Software Engineer)	Jul 2021 - Dec 2023
<ul style="list-style-type: none">Actively participated in Agile methodologies, contributing to sprint planning, daily stand-ups, and retrospective meetings.Continuously learned and adapted to new technologies and frameworks to stay current with industry trends and improve development skills.	
Key Projects:	
Content Security Policy (CSP)	
<ul style="list-style-type: none">Introduced and configured Content Security Policy (CSP) headers to enhance security by controlling the sources from which data can be downloaded, mitigating risks of cross-site scripting (XSS) and other code injection attacks, it reduced XSS vulnerabilities by 80-90%	
Ionic Framework	
<ul style="list-style-type: none">Structured a scalable Ionic Angular project structure for efficient development, enabling 0% extra efforts for Android and iOS developmentBuilt a typeahead search component with infinite scroll for optimised user experience & reduced work of developer for adding new by 90% .Integrated Firebase for realtime analytics for 100% user actions and navigations.	
PeopleHum Technologies Pvt Ltd (Intern)	Jul 2020 - Jun 2021
Impersonating User	
<ul style="list-style-type: none">Created a secure and role-based user impersonation feature used by over 100+ admins, enabling administrators to switch and act as another user without requiring their credentials. Maintained impersonation state with clear indicators and an easy revert option.	

EDUCATION

Chitkara University · Bachelor of Engineering	Jul 2017 - Jun 2021
---	----------------------------

SKILLS

ReactJS · AngularJS · Angular 14+ · Redux · Typescript · HTML · CSS · JavaScript (ES6) · Bootstrap · Tailwind CSS · Java ·

Springboot · Ionic · Cross browser and multi-platform compatibility · JIRA · GitHub · Jenkins · Webpack · Cursor

Practices: Component Driven Development, Code Reviews, Technical Documentation, Responsive Design, Cursor Rules
